Just as Christianity and Islam have various sects and schools within their general faith, so has Buddhism. A general familiarity of those schools and how they compare and contrast with other schools is the objective of this assignment. You are to **compare and contrast** your sect to *one other from the same country (1)*, and then compare your sect to *one from each of the other countries (2)* used in this assignment (two of either China, Korea or Japan). Provide at least one similarity and one difference for full marks.
